**WARNING**

Plastic chains and belts are made in various plastic materials, than will burn if exposed to sparks, incendiaries, open flame or excessive heat. Never expose plastic materials to a potential source of ignition. Flames resulting from burning plastic may emit toxic smoke and gasses as well as cause serious injuries and property damage.

## about

### EXPERIENCE

**Magris** prides itself on nearly fifty years of experience as one of the leader manufacturer of hinged slat chains and accessories in steel/stainless steel and thermoplastic resin for conveyor belts used in packaging, bottling, glass, pharmaceutical, chemical, food, mechanical industry, etc.

Nowadays, the **Magris team** continues this activity exporting all over the world through a qualified network of agents and distributors and also a short delivery time is granted through a warehouse containing large quantities of the most required items (up to 1.000 metres each chain type); non-stock and tailor-made orders can be supplied in short term.

## product range

### ITALIAN MANUFACTURE

The choice of chain materials has been specifically studied by skilled specialists and developed in cooperation with the main stainless steel and thermoplastic manufacturers, as far as the final performance is granted by chain tests which strictly conform to international regulations, e.g. careful inspections carried out during all the stages of production, whose quality is constantly supported by technological researches.

**Magris production range** for conveyor belts includes:

- Steel/stainless steel hinged slat chains and belts;
- Thermoplastic hinged slat chains and belts.
- Sprockets and idlers, curves, magnetic corner tracks guide rails profiles, accessories and components in thermoplastic resin.
